

Question 9:

Caribbean Cable Communications (Holdings) Limited ("CCC") desires streamlined processing pursuant to Section 63.12 of the Commission's rules. CCC qualifies for streamlined processing under Section 63.12(c)(1)(ii) because although CCC is affiliated with two foreign carriers in a destination market, CCC qualifies for a presumption of non-dominance under Section 63.10(a)(3). As more fully described in response to Question 11 below, CCC qualifies for a presumption of non-dominance under Section 63.10(a)(3) because neither of the two foreign carriers with which CCC is affiliated is a monopoly provider and neither has more than 50% of the market share for international transport or local access on the foreign end of the relevant routes.

The other restrictions set forth in Section 63.12(c) of the Commission's rules do not apply. CCC does not have an affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell. And CCC does not seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines.

Question 11:

63.18(i) – CCC hereby certifies that it is affiliated with the following foreign carriers because CCC owns the following foreign carriers in the respective percentages indicated:

Caribbean Cable Communications (Anguilla) Limited ("CCC Anguilla"), licensed to serve the British Dependent Territory of Anguilla, is a limited entity organized under the laws of Anguilla. CCC owns 80% of CCC Anguilla. No other person or entity owns 10% or more of CCC Anguilla.

Caribbean Cable Communications (Nevis) Limited ("CCC Nevis"), licensed to serve the Federation of St. Kitts and Nevis, is a limited entity organized under the laws of Nevis. CCC owns 90% of CCC Nevis. No other person or entity owns 10% or more of CCC Nevis.

63.18(j) – CCC hereby certifies that it seeks to provide international telecommunications services to the British Dependent Territory of Anguilla, where its foreign carrier affiliate CCC Anguilla provides services. CCC also hereby certifies that it seeks to provide international telecommunications services to the Federation of St. Kitts and Nevis, where its foreign carrier affiliate CCC Nevis provides services.

63.18(k) – Anguilla is a dependency of the United Kingdom, which is a member of the WTO. St. Kitts and Nevis are also members of the WTO. In addition, both CCC Anguilla and CCC Nevis lack market power in Anguilla, St. Kitts and Nevis. Cable & Wireless was the monopoly provider for these islands up until market liberalization in 2004. CCC Anguilla initiated service in Anguilla in December 2005. CCC estimates that there are 8,000 fixed lines island-wide and CCC Anguilla has approximately 200 lines or about 2.5% of the fixed line market. CCC Nevis is just starting to provide service in St. Kitts and Nevis and does not yet have a customer base.

63.18(l) – CCC desires the authority to resell the international switched services of an unaffiliated U.S. carrier on the routes to Anguilla, St. Kitts and Nevis. Accordingly, pursuant to Section 63.10(a)(3), CCC hereby certifies that neither CCC Anguilla nor CCC Nevis is a monopoly provider in Anguilla, St. Kitts or Nevis. CCC further submits the following information to demonstrate that neither CCC Anguilla nor CCC Nevis has sufficient market power on the foreign end of the routes to the islands specified above to adversely affect competition in the U.S. market: Cable & Wireless was the monopoly provider for these islands up until market liberalization in 2004. CCC Anguilla initiated service in Anguilla in December 2005. CCC estimates that there are 8,000 fixed lines island-wide and CCC Anguilla has approximately 200 lines or about 2.5% of the fixed line market. CCC Nevis is just starting to provide service in St. Kitts and Nevis and does not yet have a customer base.

63.18(m) – CCC desires to be classified as non-dominant. CCC submits that the information set forth above for Section 63.18(l) demonstrates that it is presumptively non-dominant under Section 63.10(a)(3) of the Commission's Rules.

Question 12:

As described above, CCC desires to be authorized to provide international telecommunications services to, among other countries, Anguilla, St. Kitts and Nevis, where it has foreign carrier affiliations described above.

Question 15:

- (d) CCC has not received authority previously under Section 214 of the Communications Act.
- (e) CCC certifies that it will comply with the terms and conditions contained in sections 63.21, 63.22 and 63.23 of the Commission's rules.
- (f) At this time, CCC seeks no other authorization available under Section 63.18(e).

(g) Not applicable.
